

VINCI Energies Switzerland, one of the country's leading group for electrical installation and building technology, is taking over the Swiss redtoo group, including its branches in the Czech Republic and the USA. The independent consulting and IT service company, which has been established for many years, is complementing the Axians portfolio, a brand of VINCI Energies, and allows Axians Switzerland to grow to more than 500 employees and an annual revenue of more than CHF 100 mio. redtoo customers will profit from the tailor-made inter-action of optimized business processes and efficient technology combined with the complementary portfolio of Axians.

redtoo ag

redtoo, headquartered in Reinach/BL, is an independent consulting and IT service company with more than 25 years of market experience and is one of the leading full-service providers in Switzerland. redtoo customers benefit from a tailor-made interaction of optimized business processes and efficient technology. redtoo evaluates all relevant processes and optimizes the core business of its customers. It creates the perfect IT system or cloud architecture and ensures the best possible equipment and smooth operation. In addition to committed and qualified employees, who contribute an important component to the success, redtoo is maintaining intensive partnerships with the leading IT manufacturers. Countless successful IT projects in global corporations, small and medium-sized enterprises, as well as awards from technology partners are confirmation of the solution competence precisely geared to customer needs.

TRIUM Corporate Finance AG acted as fully integrated M&A advisor from search to deal close for the sellers of redtoo group of companies.
